SUMMARY

As a Junior Front-End Developer, I have a degree in Information Technology and have skills in JavaScript, React JS, SQL, code versioning, Tailwind CSS and Redux. My immediate objective is to gain experience and add quality to my CV. In the long term, my goal is to specialize as a Full Stack Developer. Therefore, I consider it essential to be in an environment where I can have contact with the tools and knowledge necessary for this professional evolution.

SKILLS
